Dear Team,

Since recruiters spend an average of 7.4 seconds per scan, let's optimize the bandwidth:

I've already worked with the 3-Stripes. I led the production and logistics for the adidas Brand Center Madero opening, ensuring global blueprints were executed with a near-zero error margin. I don't need a manual; I know the DNA.

With 10+ years in Premium Retail (currently at L'Oréal Luxe), I specialize in translating global guidelines into local KPIs. My "deployment" history includes a 74% cost reduction in visual campaigns and a +18% conversion boost by optimizing the shopper journey.

I'm ready to re-deploy my expertise to scale the brand's impact in Mexico City. Let's talk about how I can hit the ground running.

Best,

Mauricio Meyrán
